# NEWSLETTER

**June 1-15, 2006**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **June 1-15, 2006**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## MEMORANDUM

### Governor's Office of Planning and Research State Clearinghouse

**Date:** December 5, 2003

**To:** All CEQA Lead Agencies

**From:** Terry Roberts, Director, State Clearinghouse

**Re:** Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov).

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
1999 through 2005**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<b><u>Documents Received on Thursday, June 01, 2006</u></b>			
2000011033	05-SLO-46 KP 51.8/90.6 (PM 32.2/56.3) Route 46 Corridor Improvement Project Caltrans #5 San Luis Obispo--San Luis Obispo The project would improve safety and provide congestion relief on State Route 46. This would be accomplished by creating an additional travel lane in each direction (east and west), separating the east and west-bound lanes by a median, improving inside and outside paved shoulder widths, and by improving left-turn channelization at all public road intersections within the project limits. Safety would also be improved by eliminating the State Routes 46/41 junction, which is an at-grade intersection, and constructing an interchange for the connection.	<b>FIN</b>	
2003021019	Hall of Justice Repair and Reuse Project Los Angeles County Los Angeles, City of--Los Angeles The project would include repairing the Hall of Justice by seismically retrofitting the earthquake-damaged building into a useable office building while preserving and restoring selected historic features. This project would include the repair of the interior of the Hall of Justice building to provide 325,000 sq. ft. of useable office space, the development of a new multi-level garage with 1,000 parking spaces on the site, landscaping and hardscaping improvements, architectural and security lighting and necessary upgrades to utility systems.	<b>FIN</b>	
2005081106	SDG&E Silvergate Transmission Substation Project - CPCN Application No. 05-03-024 Public Utilities Commission San Diego, Chula Vista--San Diego SDG&E is proposing to replace the aging 139/69 kV Mian Street Substation with a new 230/69 kV substation (Silvergate). The new Silvergate Substation would be located across the street from the existing Main Street Substation on SDG&E owned property and on adjoining property in the Barrio Logan community in the City of San Diego. In addition, SDG&E is proposing two associated projects: installation of a Special Protection System at transmission substations dispatching power from the South Bay Power Plant and 138 kV line undergrounding and removal of lattice steel bridge structures located within the SDG&E's right-of-way between South Bay Power Plant and the Sweetwater River.	<b>FIN</b>	
2006024004	Short-term Construction Projects at the 146 Air Wing, Channel Islands Air National Guard Station, Ventura County, California U.S. Air National Guard Port Hueneme--Ventura In order to streamline operations, comply with Department of Defense (DoD) Minimum Antiterrorism Standards, and enhance implementation of the mission of the 146th Airlift Wing (146 AW), the California Air National Guard (ANG) has proposed several facilities construction and associated demolition projects as well as the installation, upgrade, and maintenance of infrastructure at Channel Islands Air National Guard Station (ANGS). To correct current facility space deficiencies, enhance operational efficiency, and achieve compliance with DoD antiterrorism/force protection (ATFP) requirements, a series of short-term facilities construction projects has been proposed at the installation.	<b>FON</b>	06/30/2006

<b><u>Documents Received on Thursday, June 01, 2006</u></b>			
2006061001	Cronin Light Industrial; S05-040, Log No. 05-14-27 San Diego County Department of Planning and Land Use --San Diego The project proposes a 33,500 sq. ft. light industrial park with five buildings. The project proposes 48,200 c/y of excavation, with 21,400 c/y of export.	<b>MND</b>	06/30/2006
2006062008	Bear Valley Water District - Wastewater Treatment Facility Outfall and Tertiary Facilities Improvement Project Bear Valley Water District --Alpine Bear Valley Water District is the primary wastewater service provider for the Bear Valley resort area. The District's wastewater treatment and disposal facilities are permitted by the Central Valley Regional Water Quality Control Board, United States Forest Service, Alpine County, and the Department of Water Resources. For the District to exercise the newly adopted NPDES permit, several improvements are required including: (1) construction of Outfall 01 to Bloods Creek, (2) construction of tertiary facilities, and (3) construction of a diffuser in Bloods Creek for certain water quality requirements, if necessary. In addition to these projects, the District will be making modifications.	<b>MND</b>	07/03/2006
2006061002	Central Regional High School No. 16 Los Angeles Unified School District Los Angeles, City of--Los Angeles LAUSD proposes to construct the Central Region High School No. 16 that would accommodate 2,025 two-semester seats for grades 9 through 12. Current plans are to operate the proposed project on a traditional two-semester calendar to relieve overcrowding at Manual Arts High School and South Los Angeles Area New High School No. 1. The proposed facilities would total approximately 200,000 square feet of new building development and include 75 classrooms, a food service area, a library/media center, a multi-purpose room, gymnasium, performing arts area, and administrative offices. The proposed school would be divided into four learning communities that would be located on the southwestern area of the site, and each building would be three to four stories in height.	<b>NOP</b>	06/30/2006
2006061003	Redlands Mall Redevelopment Project Redlands, City of Redlands--San Bernardino The project proposes to redevelop the Redlands Mall site with a mixed use development of up to 220,000 square feet of commercial/retail space; 230 residential units, including live/work units; and 1,703 parking stalls in the downtown core area of Redlands, CA.	<b>NOP</b>	06/30/2006
2006061004	Kingswood Commons, Tract 5767 Reedley, City of Reedley--Fresno 244 single family, detached residential units to be developed on 80.81 acres of land currently within County of Fresno and City of Reedley jurisdiction. Project includes development of 21.5 acres of park space, with incorporated bio-swales. The project will increase density from the existing County agriculture designation to medium density residential to be annexed into City of Reedley.	<b>Neg</b>	06/30/2006

1999091002	Santa Margarita Water District (District) Recycled Water Program Expansion Project - State Revolving Fund Loan No. C-06-4845-110 Santa Margarita Water District Mission Viejo, San Clemente--Orange The proposed project involves the construction of approximately 8.9 miles of four to 24-inch pipe, three pump stations, and eligible storage for the approved users and sites listed for the referenced communities.	<b>Oth</b>	
2000011033	05-SLO-46 KP 51.8/90.6 (PM 32.2/56.3) Route 46 Corridor Improvement Project Caltrans #5 San Luis Obispo--San Luis Obispo The project would improve safety and provide congestion relief on State Route 46. This would be accomplished by creating an additional travel lane in each direction (east and west), separating the east and west-bound lanes by a median, improving inside and outside paved shoulder widths, and by improving left-turn channelization at all public road intersections within the project limits. Safety would also be improved by eliminating the State Routes 46/41 junction, which is an at-grade intersection, and constructing an interchange for the connection. For the purposes of funding and programming the project is planned for construction in two phases, the first phase is anticipated for construction in winter 2007 and expected for completion in 2009.	<b>NOD</b>	
2006042001	Removal of the Yolo Basin Experimental Fish Passage Project Water Resources, Department of West Sacramento--Yolo The project will remove the Experimental Fish Passage Facility from the Yolo Bypass Toe Drain. The facility consists of a number of elements, all of which will be removed: 20 vertical steel 'H' piles, 40 steel plates, placed vertically between the 'H' piles of the framework, 2 boat ramps, a 13,200 square foot staging area, and a 2,000 square foot access road from the levee to the boat ramps.	<b>NOD</b>	
2006069002	Precise Plan 2004-0160, Atascadero Creek Restoration Atascadero, City of Atascadero--San Luis Obispo The proposed project consists of repair and restoration of a portion of the Atascadero Creek. The project includes: relocating a portion of a gravel bar; keying in large rocks; replanting the creek bank with native willows. For approximately one month of the project, a portion of Atascadero Creek will be diverted, either by culvert pipe or plastic over a rock berm. Several non-native species are proposed for removal, as well as several walnut trees. Willow, walnut, oak, and native blackberry trees shall be planted. All tree removals shall be consistent with City's native tree ordinance. The project also includes weed abatement maintenance, willow pruning, and native plant installation within the creek area between El Camino Real and the bridge crossing.	<b>NOD</b>

	provided at the northerly boundary of the subdivision to Black Canyon Road. The subdivision could also be accessed via Mussel Shoals Avenue to Koch Street. City sewer, water and electric would be extended to serve the project. The application includes a rezone to Single-Family Residential (R-1-BSM). The BSM combining district specifies that the minimum building site is the area of the individual lot, as shown on a recorded parcel or final map, and is intended to be applied only where no further land divisions are expected. The BSM overlay zone would prevent further subdivision of any of the parcels.		
2000061145	Amendment to the Earthquake Disaster Assistance Plan for the Earthquake Disaster Assistance Project for the Laurel Canyon Commercial Corridor and the Valley.... Los Angeles, City of North Hollywood--Los Angeles The intent of the proposed Amendment to the Redevelopment Plan for the Laurel Canyon Commercial Corridor is to: provide for the restoration and redevelopment of the Valley Plaza Shopping Center, as a viable, contemporary and competitive commercial area; fulfill other goals, objectives, and requirements of the Redevelopment Plan.	<b>NOP</b>	07/03/2006
2006061005	Valley Region Elementary School No. 10 Los Angeles Unified School District --Los Angeles The project involves the construction and operation of a new elementary school on an approximately 50,000 square feet of building space, and include 26 classrooms, a multi-purpose room, kitchen, lunch shelter, library, administration offices, a small turf area and hardcourts for athletics. A separate playground area would be provided for the kindergarten students. The project also includes reconfiguration of the existing 95 space surface parking lot to provide an additional 124 spaces. The proposed elementary school will operate separately from Sutter Middle School, and a fence would be installed to separate the two campuses.	<b>NOP</b>	07/03/2006
2006061009	Change of Zone No. 7251/ Commercial WECS Permit No. 115/ Variance Case No. 1781 Riverside County Planning Department Palm Springs, Desert Hot Springs--Riverside Change of zone from W-2 to W-E, construct and operate two 3.0 MW wind turbines at a total WECS height of 411 feet, and a variance to reduce safety and wind access setbacks with related grading to move approximately 2,700 cubic yards of earth.	<b>NOP</b>	07/03/2006
2006061011	El Sur Ranch State Water Resources Control Board --Monterey On July 10, 1992, Water Right Application No. 30166 was filed by Mr. James Hill on behalf of El Sur Ranch (Ranch). The application represents the proposed project under CEQA. The Ranch is a 292-acre cattle operation located on the Big Sur Coast, adjacent to the Big Sur River in Monterey County, California. The application seeks a maximum direct diversion of 1,615 acre-feet per annum (afa), with a twenty-year rolling average not to exceed 1,200 afa, from two wells near the mouth of the Big Sur River for irrigating 267 acres of pastureland out of a 292-acre place of use.	<b>NOP</b>	07/03/2006

Resultant Parcel D is currently developed with a single family residence. Resultant parcels C and D are served by on-site water and septic systems.	<b>NOD</b>	
2006042050	Holbrook-Palmer Park Access Trail and Bridge Project Atherton, City of Atherton--San Mateo Construction of a trail/pathway connecting existing shoulder pathways, east and west of the railroad tracks on Watkins Avenue and construction of a pre-fabricated pedestrian bridge over Atherton Channel to connect the Watkins Avenue pathway to the Holbrook-Palmer Park walking path.	<b>NOD</b>	
2006069001	City of Soledad Long-term Wastewater Management Plan Soledad, City of Soledad--Monterey The Long-term Wastewater Management Plan provides for upgrading, expanding, operating and maintaining the City of Soledad's wastewater infrastructure consistent with the City's Wastewater Treatment and Disposal Master Plan (Master Plan) adopted by the City Council on September 21, 2005. Environmental review for the Master Plan and implementing Wastewater Management Plan was accomplished through completion and Certification of a Final EIR for the City of Soledad 2004 General Plan & Wastewater Treatment and Disposal Master Plan on September 21, 2005, along with a Statement of Overriding Consideration, pursuant to CEQA. This EIR is a Program EIR pursuant to CEQA Guidelines Section 15168. The Long-term Wastewater Management Plan is consistent with and intended to implement the adopted Master Plan and required mitigation measures. (pp. V.1-30 - V.1-31 of EIR). Accordingly, no further environmental review pursuant to CEQA is required.	<b>NOD</b>

2006068005	<p>The Crane Valley Hydroelectric Project Manzanita Dam Weir Gate Installation State Water Resources Control Board, Division of Water Rights --Madera</p> <p>PG&amp;E, which operates the Crane Valley Hydroelectric Project, has applied for water quality certification pursuant to section 401 of the Clean Water Act. (33 U.S.C. § 1341). The proposed project is to modify Manzanita Dam by enlarging an instream valve; removing flashboards in one spillway and replacing them with a new weir gate. The modifications are necessary for PG&amp;E to make new required minimum flow releases to the North Fork of Willow Creek pursuant to a new Federal Energy Regulatory Commission license (No. 1354) issued for the Crane Valley Hydroelectric Project.</p>	<b>NOE</b>	
2006068025	<p>University Villages, Former Fort Ord, Removal Action Work Plan for Lead Contaminated Soil Toxic Substances Control, Department of Marina--Monterey</p> <p>This project is the approval of a Removal Action Work Plan (RAW) by DTSC for the removal of lead (Pb) contaminated soil from around the barracks and buildings at the Former Fort Ord training facility constructed between 1940 and 1945 by the U.S. Army. Site characterization indicates that the Pb contamination is likely from lead-based paint residue and chips from the buildings and past maintenance. Characterization also indicated that the contamination is mainly in the top one to two feet of soil and within three feet of the drip-line of building roofs. Based on site characterization and the removal action goals, approximately 7,900 cubic yards of soil will be excavated and transported off-site for disposal. The excavated soil will likely meet the characteristics of a hazardous waste due to the high concentrations of Pb in the soil. The removal action cleanup goal for Pb (203 mg/kg total Pb) is the based on the intended future use being residential with no health based use restrictions. Future development of the site is planned for mixed residential and commercial uses and will include parks.</p>	<b>NOE</b>

2006062012	<p>Kernen Construction CUP Modification for a +/- 14,310 sf Addition to an Existing Metal Building. Addition is to House a Metal Fabrication Operation. No Change Humboldt County Community Development Services Blue Lake--Humboldt</p> <p>The project consists of a modification to an approved Conditional Use Permit (CUP-00-24) to allow for the development of a 14,310 sf metal building to house a new sheet metal manufacturing and retail sales use. This modification is not to allow an increase in the amount or timing of rock crushing. The following describes the existing approved use: A Rock Aggregate Processing and Materials Storage and Handling Yard Facility at an existing industrial site that was formerly utilized as the Blue Chip Mill; and an after the fact Special Permit to place soil fill material on specific areas of the materials storage and handling yard that were historically wetlands and to mitigate for these impacts. The project site was previously an industrial hardwood log chip manufacturing facility including lot storage areas (decking areas), buildings that housed log chipping equipment and handling machinery, an office building, a storage building, "Quonset hut" equipment maintenance structure and fuel storage facility. Proposed new uses will include: (1) storage of raw and process rock aggregate materials, soil and other materials like organize debris, asphalt shingles and scrap metal; (2) rock processing operations, which includes rock crushing, sorting and screening equipment, moveable conveyors, loading equipment and truck scales; (3) stockpiling for temporary storage of scrap metal, roof shingles and other non-toxic waste materials; (4) parking for trucks and heavy construction equipment utilized by Kernen Construction; (5) office facilities for the new use; and (6) placement and grading of soil fill over a portion of the yard area. The applicant proposes to operation the facility throughout the year, with peak activity during the summer months. Rock crushing and sorting activities would occur on average approximately 50 days per year. Hours of operation for the facility are propped to be 7:00 am to 6:00 pm weekdays and 7:00 am to 5:00 pm Saturdays, with reduced hours during winter months.</p>	<b>MND</b>	07/05/2006
2006062016	<p>Truckee Community Recreation Center Truckee-Donner Rec and Park District Truckee--Nevada</p> <p>In July 2005, the District Board of Directors commissioned NTDStichler to perform a master plan study for a future recreation center on the Gray's Triangle site. On February 9, 2006, the District Board of Directors at their regular meeting approved the master plan and site layout for the community recreation center as presented by the project architect. The architectural program for the Truckee Community Recreation Center includes: (1) a 17,500 s.f. double gymnasium with elevated running track; (2) a 27,000 s.f. natatorium (swimming facility) with a zero-entry (beach-type entry) recreation pool, lazy river, play slide, and spa; (3) a 12,500 s.f. natatorium with a 6-lane, 25-yard lap pool; (4) administrative offices; (5) community spaces such as center lobby with fireplace and rock climbing wall at first-floor level and fitness/workout area on mezzanine level, art room, youth game room, pre-school room, and two community rooms with catering kitchen; and (6) a 14,000 s.f. black box theater. In total, the community recreation center will be approximately 100,546 s.f.</p>	<b>MND</b>	07/05/2006

2006061025	Master Water Plan for Castaic Water System Newhall County Water District --Los Angeles The Newhall County Water District (NCWD) intends to adopt a Master Plan for the orderly development of water distribution facilities. The Castaic Water System is one of four water systems operated by the NCWD. The service area comprises approximately 7,750 acres. The Master Plan, updated May 2006, identifies recommended improvements to be constructed in phases to meet the current and projected water needs of more than a dozen anticipated development projects that would be served by the Castaic Water System and for which tentative maps and/or specific plans have been approved by Los Angeles County. These facilities would later be augmented to meet the water distribution needs of the entire Castaic area as it is completely developed. The Master Plan ties completion of the recommended improvements to three phasing years: 2006, 2010, and 2020. Implementation of the Master Plan would involve temporary disturbance to areas where pipelines, pumps, reservoirs and other related infrastructure components would be installed.	<b>Neg</b>	07/06/2006
2006062013	TPM2005-0028 Yuba County --Yuba A proposal to subdivide 22 acres into three parcels 8.01, 5.25, and 8.74 acres, in the RR-5 zone on Walsh Lane in Smartville.	<b>Neg</b>	07/05/2006
2006062014	Ecology Control Industries Hazardous Waste Facility Permit Toxic Substances Control, Department of Richmond--Contra Costa In accordance with California Health and Safety Code, section 25200, and Chapter 6.5 and California Code of Regulations, Sections 66270.42, the Department of Toxic Substances Control (DTSC) is proposing issuance of a Standardized Permit Series A for an Underground Storage Tank Recycler with Environmental Protection Agency (EPA) identification (ID) Number CAD 009466392 for Ecology Control Industries, hereafter ECI. The issuance of this permit is defined as a "project" according to the Public Resources Code (PRC) Section 21065 and the CEQA Guidelines Section 15378. This project is subject to the environmental review process as the lead agency as defined by the PRC Section 21080 and the CEQA Guidelines Section 15063. Consequently, this environmental review document has been prepared in accordance with these CEQA requirements.	<b>Neg</b>	07/05/2006
2006062015	Vernal Pool Creation and Preservation Project as Mitigation for the Butte 70/149/191 Highway Improvement Project Butte County Association of Governments Oroville--Butte The purpose of the Vernal Pool Creation and Preservation Project is to meet the mitigation requirements associated with the upgrading of State Route 149 to a four-lane expressway and construction of interchanges at the existing State Route 70/149 and State Route 99/149 intersections in Butte County. To offset the highway improvement project impacts to existing vernal pool habitat, the proposed mitigation project will preserve, enhance, create, restore, and protect for perpetuity a sufficient number of acres as set forth in the issuance of Permit #199700165 through the United States Army Corps of Engineers (ACOE) in compliance with the National Environmental Policy Act (NEPA) and Section 404 of the Clean Water Act.	<b>Neg</b>	07/05/2006

	government structure options, including advantages and disadvantages of consolidation or reorganization of service providers, evaluation of management efficiencies, local accountability and governance.		
2006068014	Oso Reservoir Boy Scout Camp Rancho Santa Margarita, City Rancho Santa Margarita--Orange The Orange County Council of the Boy Scouts of America is proposing to make basic temporary improvements on a 12-acre site owned by the Santa Margarita Water District (SMWD). The camp will be used by both Cub Scouts and Boy Scouts for programs including camping, catch-and-release fishing, field activities, team-building, archery, slingshot safety, BB gun safety, hiking and educating campers about regional environmental issues. The proposed Camp will include three mobile-home type buildings, a few locked storage bins and a small boat house. The mobile homes will be used for (1) a full-time facility manager's residence, (2) a chaperone quarters/first aid, and (3) a clubhouse/Camp store. These mobile homes will be separately permitted through the building permit process. The proposed improvements would not increase the capacity of the Camp site. Rather, they would upgrade amenities and provide better and safer facilities for campers and staff.	<b>NOE</b>	
2006068015	03-Yub-49 EA 03-2E3601 Repair Roadway Embankment Caltrans #3 --Yuba Repair roadway embankment which has failed due to storm damage.	<b>NOE</b>	
2006068016	Management of Pollutant Loads from Major Agricultural Land Uses & Development of BMPs University of California, Davis --Yolo Installation and data collection from approximately 90 hand-augered monitoring wells, 10 sets of soil monitoring instruments, and 9 water flow gauging stations in the Willow and Dry Slough Watersheds. Most instrumentation would be located in agricultural fields. Work in the riparian zone will not have an impact on the stream or the adjacent vegetation due to the low intensity of the installation which relies on hand tools.	<b>NOE</b>	
2006068017	Well No. 356X-14Z (030-30451) Conservation, Department of --Kern Drill a development well within the administrative boundaries of an oil and gas field. The well will be compatible with existing land use.	<b>NOE</b>

2004062133	Silver Creek Planned Development Subdivision Placer County Planning Department --Placer Proposed 79-lot single-family residential subdivision on 28.6 +/- acres.	<b>FIN</b>	
2006062020	West F Street Subdivision Napa, City of Napa--Napa Request to divide a 5.4-acre property at 2055, 2069, and 2071 West F Street into 18 single-family detached lots ranging in size from 7,054 square feet to 22,151 square feet, and construct 18 single family dwellings thereon. The project includes development of a public cul-de-sac from West F Street south, angling west to the west property boundary. Three existing residences on the property will be removed. Project approvals include: (1) Design Review of the proposed Tentative Subdivision Map; (2) a Tentative Subdivision Map to divide the property into 18 single-family detached lots; and (3) Design Review of the proposed house plans.	<b>MND</b>	07/05/2006
2006061020	Desert Lakes Specific Plan Coachella, City of Coachella--Riverside The proposed project consists of a specific plan to allow the development of 2,572 acres located north of the I-10 Freeway in the northeast corner of the City of Coachella within Riverside County as a master-planned residential community. As proposed, the Desert Lakes Specific Plan would allow the development of compact residential neighborhoods of varying densities encircling a Town Center along with supporting commercial and community facilities, including community parks, lakes, golf courses, schools, pedestrian paseos, bicycle paths, recreation areas and natural open space. The proposed Specific Plan would allow the development of a maximum of 7,300 residential units. In addition to considering adoption of the specific plan, the City of Coachella will also consider approval of related discretionary actions, including a General Plan Amendment, Zone Change, Development Agreement, and a large lot Tentative Tract Map.	<b>NOP</b>	07/05/2006
2006061021	Sanchez Ranch Specific Plan Imperial, City of --Imperial The proposed project is intended to subdivide approximately 626 acres of land located at the northeast corner of Clark Road (P Street) and Worthington Road (Barioni Boulevard). The proposed project would result in the creation of 1,709 single family residential lots, 30.7 acres of multifamily residential, 27.2 acres of Neighborhood Commercial, 61.5 acres of parks/retention basins, 10.1 acres reserved for public facilities, two (2) elementary schools, and one (1) middle school. The proposed project requires a Specific Plan, General Plan Amendment, Pre-Zone, Tentative Tract Map, Amendment to the Sphere of Influence Boundaries and an Annexation.	<b>NOP</b>	07/05/2006
2006062018	Soper Wheeler - 2006 Summer General Plan Amendment Plumas County Planning Department Quincy--Plumas Proposal to amend approximately 200 acres from Important Timber with a Timberland Production Zone (TPZ) to Moderate Opportunity Suburban and zone Suburban (S-1).	<b>NOP</b>	07/05/2006

<b><u>Documents Received on Tuesday, June 06, 2006</u></b>			
2006062088	Teal Cove II, Subdivision No. 9080 Oakley, City of Oakley--Contra Costa The proposed project includes the subdividing of 5.9-acres into 26 lots for residential development. The applicant is requesting the following entitlements from the City of Oakley Community Development Department: Rezone of the project site from Agriculture (A-3) to Planned Unit District (P-1); Tentative Map to subdivide a 5.9-acre site into 26 total lots, which includes internal roadway and utilities necessary to serve the development; Development Plan and design review for the proposed project.	<b>Neg</b>	07/05/2006
2005094003	Joint Training Center - Lease at Yuba Goldfields Bureau of Land Management --Yuba The proposed action is the construction and operation of the Operating Engineers Training Center (Training Center). Operating Engineers are the people who operate the heavy equipment at construction sites and at quarries and other facilities that produce rock, sand or gravel. They repair equipment on the job site and in the shops of contractors and they do specialized work such as operating all types of cranes, pile drivers, dredging rigs, drillers, concrete pumpers, and water trucks for dust abatement.	<b>Oth</b>	06/30/2006
2004122113	Kaiser Permanente Santa Clara Medical Center Helipad Project Santa Clara, City of Santa Clara--Santa Clara The proposed project is the construction and operation of a State permitted hospital heliport on the new 53-acre Kaiser Permanente Santa Clara medical Center campus located in the City of Santa Clara. This hospital heliport, also referred to herein as a helipad, would consist of a 17-foot high platform, located on the south side of the hospital building. The helipad would be used for emergency evacuation of critically ill patients to other medical facilities to receive specialized treatment. Although it is anticipated that emergency evacuations requiring use of the helipad will occur approximately three to four times per year, the Supplemental EIR will analyze the environmental impacts of operation of the proposed hospital helipad assuming an average of fifteen (15) flights per year over a two-year period.	<b>SIR</b>	07/20/2006
2005051026	Gualberto J. Valadez Middle School (formerly Southwest Middle School) Project Placentia-Yorba Linda Unified School District Placentia, Anaheim--Orange The proposed project would consist of the site acquisition, construction, and operation of a middle school on approximately 10 acres of land. The middle school would consist of classrooms; administration offices; a library; a gymnasium; a multipurpose room/cafeteria; athletic fields; staff and visitor parking/drop-off facilities; and outdoor areas, including a lunch shelter, a courtyard, and an amphitheater. The middle school would provide educational facilities for grades 6-8 and would serve approximately 850 students. Approximately 65 teachers, administrators, and other staff members would be employed at the school. Regular operating hours for the school would be from approximately 8:00 am - 3:00 pm, with staff remaining on site until approximately 4:30 pm.	<b>NOD</b>

2006042135	<p>Arboretum Waterway Improvements University of California, Davis Davis--Yolo, Solano</p> <p>UC Davis is proposing to construct and operate the Arboretum Waterway Improvements, which is a water recycling project. The purpose of the project is to improve the water quality in the Arboretum Waterway, which is stagnant, by keeping water flowing through the waterway year-round. The project would consist of re-operating an existing, but current unused, 18-inch pipeline to circulate tertiary-treated water from the existing campus wastewater treatment plant (WWTP) through the Arboretum Waterway before discharging it to Putah Creek. Tertiary-treated wastewater has undergone filtration that removes additional pathogens and contaminants and meets Department of Health Services' standards under Title 22 of the California Code of Regulations for unrestricted recycling uses. The campus' wastewater already is being discharged to Putah Creek, so the project would extend the route that the wastewater takes before discharge. The project would involve installation of two valves, a connecting pipeline, and an outfall structure in order to accomplish the project purpose.</p>	<b>NOD</b>

2006061026	<p>Plaza Specific Plan (St. Jude Medical Office Building, Phase 2) Fullerton, City of Fullerton--Orange</p> <p>The project proposes development of a 4-story, 97,895 sq. ft. medical administrative office building with height of approx. 72 feet; an 8.5-story 521-space parking structure with a typical floor-to-floor height of 11 feet 4 inches; accessways and visitor drop-off areas; and landscape areas. Access to the site will be provided via N. Harbor Blvd. and two existing driveways off of Valencia Mesa Drive and Laguna Rd. The allowed Floor Area Ratio (FAR) ranges from 0.25 to 0.35 sq. ft. The project will increase FAR above the allowed level; hence, a GP revision and Zoning amendment is required. The project would occur in one phase over a period of 12 to 18 months.</p>	<b>NOP</b>	07/06/2006
2006061027	<p>Panorama Place; ENV-2006-2133-EAF Los Angeles City Planning Department Los Angeles, City of--Los Angeles</p> <p>The Project would involve the development of approximately 504 condominium units (approximately 494,360 square feet of residential space) and approximately 452,400 square feet of retail uses (including, but not limited to, retail, restaurant, health club, and grocery store uses) on an 8.7- acre site. The norther building component would include subterranean parking, up to six levels of above-ground retail parking and 12 levels of residnetial units, and would extend up to approximately 240 feet in total height. The southern building component would be up to approximately 80 feet in height at the parapet wall and up to approximately 105 feet in height for the highest billboard, and would include three levels of retail uses and an enclosed truck loading dock. The northern and southern components of the proposed project would be separated by a three-level covered boulevard approximately 100 feet in height, which would accomodate vehicular traffic at the ground-level and pedestrian access to the parking garage at each retail level. The Project would include the demolition of three one- to two-story commercial structures that are currently vacant and surface parking lots. The onsite structures include a former Montgomery Ward Building, former auto repair shop, and former restaurant building.</p>	<b>NOP</b>	07/06/2006
2006061028	<p>Specific Plan No. 05-02 (Canyon Trails) Hemet, City of Hemet--Riverside</p> <p>Specific Plan No. 05-02 proposes a master-planned community to provide a maximum of 714 residential dwelling units on a 364.0-acre property, with a gross project density of 2.0 dwelling units per acre (du/ac). Five (5) residential product types are proposed in nine (9) planning areas, ranging from traditional small lot sub-divisions and patio home products to one-acre minimum equestrian lots. In addition, a 19.0 acre park/equestrian center is proposed adjacent to California Avenue. Approximately 118.0 acres of the Property would be preserved as natural open space, and an equestrian trail system would traverse throughout the community. A Local Agency Formation Commission (LAFCO) action also is proposed to annex the site, as well as the adjacent Maze Stone Village mobile home park and three (3) other adjacent parcels located west of California Road and southeast of the Specific Plan area, to the City of Hemet.</p>	<b>NOP</b>	07/06/2006

2006062022	<p>Building J-1 Renovation and Upgrade University of California, Davis Davis--Solano</p> <p>The proposed UC Davis Building J-1 Renovation and Upgrade would renovate and expand an existing building to provide increased laboratory and office space. The existing Building J-1 consists of approximately 23,000 square feet that was designed, constructed, and operated for infectious organism containment research. However, the north wing is currently being used as storage space due to deficiencies in meeting current standards for containment of infectious organisms. The proposed project would renovate approximately 1,550 square feet within the north wing of Building J-1 to provide improved animal holding, laboratory containment rooms, and upgraded air handling capabilities. The project would expand the building approximately 400 square feet by constructing an exterior corridor along the north and east sides of the north wing of Building J-1. The new exterior corridors along the north and east side of the north wing of Building J-1. The new exterior corridors would facilitate the renovation project for research with infectious organisms requiring Biosafety Level 3 (BSL 3) containment. Biosafety ratings range from Level 1 to Level 4 and indicate the varying degrees of building containment and laboratory precautions that must be followed while conducting research with particular organisms.</p>	<b>Neg</b>	07/06/2006

2004102044	Promenade Lifestyle Center Modesto, City of Modesto--Stanislaus Development of a mixture of retail and office uses, a multi-screen movie theater, and the construction and operation of a three-story hotel. A second scenario would replace the office and hotel components of the project with 250 multiple-family residential units.	<b>EIR</b>	07/24/2006
2005021053	Grapevine at Sierra Condominiums Fontana, City of Fontana--San Bernardino The proposed project would consist of 201 dwelling units on 19.39 gross acres of land (16.44 net acres of land), which equates to a density of 12.22 dwelling units per acre (du/ac). This density is consistent within the General Plan's prescribed density of 11.0-24.0 du/ac for multi-family residential development.  The proposed project consists of 39 buildings. All buildings will be two-story or less, and will be consistent with zoning. Parking provided totals 566 spaces with 402 garage spaces, 90 pull in parking spaces, 67 pull in guest spaces, and 7 pull in handicap parking spaces. The primary access point for the proposed project will be via single entry on Sierra Lakes Parkway. This entrance will have two electronically controlled gates. There are also three secondary access points for the proposed project. Drive aisles would connect the parking areas. A detention basin for stormwater would occupy the southwestern corner of the project site.  Site amenities include a common area recreation facility with a pool building, a resort style pool and spa, two tot lots, a sports court, a dog park, a gazebo, and numerous areas with barbeques and benches.	<b>EIR</b>	07/24/2006
2006012113	Reynolds Ranch Project Lodi, City of Lodi--San Joaquin The proposed Reynolds Ranch Project consists of a Development Plan for 60 acres of the site, a Concept Plan for the remaining 160 acres of the site, and an Infrastructure Master Plan for the entire site, along with annexing the project site into the City of Lodi.	<b>EIR</b>	07/24/2006
2004092051	Preserve at Sunridge Rancho Cordova, City of --Sacramento The Preserve at Sunridge project would include single-family residential, multi-family residential, commercial and office, neighborhood and community parks, an elementary school, detention/water quality basins, a landscape lot, open space/wetland preserve, pedestrian facilities, bikeway, drainage corridor, and landscape corridor land uses on the approximate 530.1-acre site.	<b>FIN</b>	07/24/2006

2006021098	Construction and Operation of a Consolidated Dining Facility Army National Guard, California San Luis Obispo--San Luis Obispo Under the proposed project, the California Army National Guard would construct and operate a 15,862-square-foot consolidated dining facility and associated facilities. The construction phase would occur over approximately 14 to 16 months and would include grading the site and constructing the 15,862-square-foot dining facility. Operation of the new dining facility would be similar to that of the temporary dining facilities, with 14 staff persons working between 3:30 am and 8:00 pm. The dining facility is designed to serve between 501 and 800 people per 90-minute meal period. The proposed project includes environmental protection measures for worker protection, protection of cultural resources, dust control, and pollution prevention.	<b>FON</b>	
2006061036	Montemar; TM 5316RPL^2, Log No. 03-14-031 San Diego County Department of Planning and Land Use --San Diego Major subdivision to create 13 parcels on a 7.36-acre parcel.	<b>MND</b>	07/10/2006
2006061037	La Canada Town Center MND La Canada Flintridge, City of La Canada-Flintridge--Los Angeles The proposed project includes the development of a commercial and retail town center with a total of seven distinctive structures, including a parking deck along the south side of the proposed North Road and two major retail stores, Major A and Major B. The Conceptual Site Plan, Major B would be located along Foothill Boulevard. A 0.75-acre park would be located along the north side of the proposed North Road. Approximately 35,000 square feet of existing rail space and 21 single-family rental uses would be demolished as part of the proposed project.	<b>MND</b>	07/10/2006
2006061042	MCWD Tanks Improvements Project Marina Coast Water District Marina, Seaside--Monterey The proposed project will consist of demolition of the existing D Zone Reservoir, E Zone Tank and pump station, and construction of a new D Zone Reservoir, a closed system hydropneumatic pump station to serve E Zone, and offsite storm drain and potable water pipeline for both the D and E Zones. In addition, the proposed improvements include demolition of the Airport Tank and Bayer Tank. The proposed action is part of MCWD's Capital Improvements Plan (CIP) identified within the 2004 Ord Community Water Distribution System Master Plan. Improvements to the system's storage facilities are necessary to meet the projected future demands, as well as comply with current State Department - Department of Health Services (DHS) regulations for potable water distribution systems.	<b>MND</b>	07/10/2006
2002041041	Pala Casino and Hotel Expansion Pala Band of Mission Indians --San Diego Expansion of casino and entertainment space, by 70,000 feet; construction of approximately 1500 additional parking spaces; construction of approximately 50 additional hotel rooms; expansion of spa; road improvements on SR-76; potential wastewater system upgrade.	<b>NOP</b>	07/10/2006

2006061038	I-105 Dewatering Wells Beneficial Re-Use of Groundwater Water Replenishment of Southern California Carson, Long Beach, Paramount, Compton, Lynwood, South Gate--Los Angeles The I-105 Dewatering Wells Beneficial Re-Use of Groundwater Project would treat/blend the groundwater extracted from Caltrans dewatering wells to current water standards and would then deliver the water to the Dominguez Gap Seawater Barrier (DGSB) located in the Wilmington/San Pedro area for injection into the barrier wells. The proposed project would use blended water from the dewatering wells and a future well to minimize reliance on Metropolitan Water District water, which is currently injected into the DGSB. This would be accomplished through construction of an approximate 41,250 linear foot pipeline and a new 0.9 acre treatment and blending facility.	<b>NOP</b>	07/10/2006
2006061039	Watermark Development Project Bakersfield, City of Bakersfield--Kern The Project consists of an annexation, general plan amendment, zone change, and circulation element amendment to allow for the development of a Master Planned community of approximately 638 acres in northeast Bakersfield.	<b>NOP</b>	07/10/2006
2006061040	Riverview Development Project Bakersfield, City of Bakersfield--Kern The Project consists of an annexation, general plan amendment, zone change, and circulation element amendment to allow for the development of a Master Planned community of approximately 638-acres in northeast Bakersfield.	<b>NOP</b>	07/10/2006
2006062035	Ojo de Agua Redevelopment Project Amendment Morgan Hill, City of Morgan Hill--Santa Clara This project proposes to amend the 1999 Community Development Plan of the Ojo de Agua Project, originally adopted June 30, 1981. This proposed Plan Amendment has been initiated by the Morgan Hill Redevelopment Agency (the Agency) to accomplish the following actions: 1. Detach approximately 492 acres of territory (Detachment Area) from the existing 2,747-acre Redevelopment Plan Project Area (Project Area). 2. Increase the Agency's authorized tax increment cap by \$335 million to \$582 million within the 2,255-acre Remaining Area (or Amended Project Area, consisting of the Project Area less the Detachment Area). 3. Increase total bond limit for the Ojo de Agua Redevelopment Project to \$150 million. 4. Re-authorize eminent domain authority on non-residentially occupied properties within the Amended Project Area.	<b>NOP</b>	07/10/2006
2006062036	Oxford Valley Subdivision/ Lot Line Adjustment Marin County San Rafael--Marin This is a subdivision application seeking approval of a non-vesting Tentative Map to subdivide a 30.5-acre vacant property into 24 lots for future single-family residential development. The proposal would extend Leona Drive, which would provide access to 4 of the lots. Both Sidney Court and Oxford Drive would be extended and connected to provide access to the remaining 20 proposed lots. All streets are proposed for public dedication. The proposed lot sizes range from 20,005 square feet to 3.2 acres, and a total of approximately 40,531 square feet of	<b>NOP</b>	07/10/2006

2005042018	Rivers Phase II West Sacramento, City of West Sacramento--Yolo The Rivers Phase II project would construct one of two scenarios on approximately 68 acres of the approved Lighthouse Marina and Riverbend Development Project area in the City of West Sacramento. Scenario A includes the development of a mix of single-family residential units (approximately 626 units), an approximately 12.3-acre K-8 school, two-acre park, and supporting infrastructure. Scenario B would construct an additional 176 residential units on the school site for a total of 802 units if a school is not constructed. The proposed project also includes installation of approximately 3,000 linear feet of bank stabilization along the Sacramento River. Finally, the proposed project includes text amendments to PD-29, approval of a small lot vesting tentative map, approval of a Development Agreement, and approval of a Water Supply Assessment.	<b>NOD</b>

2006068061	Amendments to Regulation 3: Fees Bay Area Air Quality Management District --Alameda, Contra Costa, Marin, Napa, San Francisco, ... The project consists of amendments to an existing BAAQMD regulation that establishes fees for source operations and other activities. The amendments, which become effective on July 1, 2006, increase fee revenue in order to enable the District to address increasing regulatory program activity costs. The amendments increase fees for equipment in some of the schedules in Regulation 3 by 5% or 15%, based on the results and recommendations of a study completed last year for the District by the accounting firm Stonefield Josephson, Inc. (Bay Area Air Quality Management District Cost Recovery Study, Final Report; March 30, 2005). In addition, the amendments increase administrative fees by 5% for new and modified source filings, duplicate permits, emission banking filings and withdrawals, interchangeable emission reduction credits, alternative compliance plans, permit renewal processing, and health risk screening analyses. The amendments decrease fees for reinstatement of permits that have lapsed due to late payment. The proposed amendments are authorized by Health and Safety Code Sections 42311, 42311.2, 41512.7, 42364, and 44380, and 40 CFR Part 70.9.	<b>NOE</b>

	pounds) of incoming dusts and 6 55-gallon drums (approximately 1,500 pounds) of Finished Dust, and allow UPM to use two (2) melting kilns (furnaces), two (2) ball mills, two (2) screen sieves, and one (1) blender.		
2006068063	Emergency Permit for One Time Treatment at United Technologies Corporation (UTC) for a Maximum of 1,500 Gram (Less than One Gallon) Solution of 2,2-dinitro-1,3-Toxic Substances Control, Department of San Jose--Santa Clara DTSC has granted an Emergency Permit in accordance with Title 22, California Code of Regulations, Section 66270.61 to United Technologies Corporation to allow a one time treatment of a hazardous waste. This one time treatment will take place on one day between the dates of June 20 and June 23, 2006 or June 27 and June 28, 2006. The waste consists of a solution of A-Diol dissolved in isopropyl ether contained in a glass bottle with an approximate capacity of one gallon. A small blasting cap is used to shatter the bottle. Kerosene and wood are ignited remotely to burn the material. All remaining ash, glass, and wood will be tested and disposed of at a Class 1 RCRA landfill. The metal plan on which the burn will take place will be decontaminated using cleaning solution and rags. All cleaning materials and rags will be disposed of with the other materials at a Class 1 RCRA landfill.	<b>NOE</b>	
2006068064	Former Tyco Electronics Field Avenue Facility, Interim Measures for Removal of Lead Impacted Soil Toxic Substances Control, Department of Stockton--San Joaquin The proposed interim measures will consist of the following: - Removal of the concrete pad and the top five feet of the soils (approximately 43 tons) in the vicinity of the former plating process area using a backhoe and proper hand and power tools. The size of the excavation will be approximately 10 feet by 15 feet by 5 feet deep; - A competent member of the field staff trained in excavation safety will examine the ground to prevent potential cave-in or collapse. Shoring protection systems will not be required according to Federal and California OSHA guidelines, provided that the excavation depth does not exceed 5 feet. Also, the excavation is not close to any of the building walls so structural integrity of the building will not be affected by the excavation activities; - Stockpiling excavated material and/or placing the material in roll off bins. Excavated material will be covered with plastic sheeting at the end of each day; - Conducting dust suppression, as necessary (watering of excavation, covering of stockpiles), and dust monitoring during excavation and backfilling activities; - Confirmation sampling to ensure that residual levels of lead are below the residential exposure level of 150 mg/kg pursuant to the California Environmental Protection Agency's California Human Health Screening Levels; - Proper disposal of personal protective equipment (PPE); - Disposal of excavated soils and other waste (such as decontamination water). Samples of each waste stream will be collected and submitted for disposal profiling. Following receipt of analytical results for profiling of the waste, an appropriate facility for disposal will be identified, and a licensed disposal contractor will transport the containers to the designated disposal facility in accordance with all applicable rules and regulations. If lead concentration of the excavated soil is above 350 mg/kg, it will be disposed to a Class I landfill pursuant to Health and Safety Code section 25157.8.	<b>NOE</b>

	trenches at Areas 1 and 3 prior to capping. Land use controls will be put into place which will specify that no buildings or residences can be constructed at the site, and will also identify the need for maintenance of the cap.		
2006062038	Russian River Bridge Replacement Project Caltrans #1 Ukiah--Mendocino The new bridge would be slightly wider than the existing bridge, with wider shoulders on either side of the traffic lanes instead of sidewalks. The new structure would have two new abutments and four piers, compared to the existing bridge's two abutments and five piers. Project activities would take place over three construction seasons, with any work below the river's ordinary high water elevation occurring between June 15th and October 15th. Riparian vegetation would be removed around the bridge to provide access for construction equipment. Cofferdams may be constructed to facilitate construction and pier removal along with falsework to support new concrete forms. New piers and footing would be installed through a cast in steel shell process. In addition, the low flow channel of the river would be diverted to pass through the work area between the bridge piers, and a temporary crossing may be built to allow construction equipment access. The bridge would be replaced one-half at a time, allowing for one-way, alternating vehicle use.	<b>Neg</b>	07/11/2006
2006062041	Washington Ave Trunk Sewers, Phase II Oro Loma Sanitary District San Leandro--Alameda The replacement of approximately 2,750 lineal feet of 30-inch sewer with 48-inch sewer and approximately 2,500 lineal feet of 24-inch sewer and 550 lineal feet of 12-inch sewer with approximately 2,315 lineal feet of 12" sewer.	<b>Neg</b>	07/11/2006

<b><u>Documents Received on Monday, June 12, 2006</u></b>			
	direction). In accordance with Sections 6.3.2 and 6.4.2 of the Bridle Ridge Way to an 80-foot cross-section with two travel lanes in each direction, a center median/left-turn lane, and two 8-foot shoulders to accommodate right-turn lanes and emergency stopping. Right- and left-turn pockets will also be developed on Crane Road at Highway 108. Finally, in accordance with Sections 6.3.1 and 6.4.2 of the Bridle Ridge Specific Plan, the project will add a traffic signal at the intersection of State Highway 108 and Crane Road. This project is further required by the conditions of approval for the Vesting Tentative Subdivision Map 2003-02 for Vineyard, Phase III.		
2003071080	Sea Terrace Community Park Dana Point, City of Dana Point--Orange Sea Terrace Community Park includes the implementation of several improvements or upgrades to existing park amenities to beautify or enhance the passive nature of the existing community park. Other passive features (e.g., ocean view overlook, view gazebo, furniture, etc.), are also included to complement the low intensity use desired for Sea Terrace Community Park. Landform alteration will be necessary to provide topographic variation to the site, which will be landscaped with turf in the flatter portions of the property and with shrubs and other vegetation to soften the existing berms along Pacific Coast Highway and on the "knolls" and undulating features of the site. The improvements also include an active play area for children, a restroom, walkway/tramway bollard lighting, a shaded picnic area, and a thematic bridge. In addition, an underground maintenance yard, street improvements and a parking lot will also be implemented in the future.	<b>NOD</b>	
2003072089	Lake Trout Timeshare Resort South Lake Tahoe, City of South Lake Tahoe--El Dorado The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0278-R2 pursuant to Section 1600 of the Fish and Game Code to the project operator, Sierra Shores, Inc. of Zephyr Cove, NV:  Install slope stabilization structure.	<b>NOD</b>	
2004062116	Antonioli Lot Line Adjustment and Precise Development Plan Marin County Novato--Marin The Lot Line Adjustment and Precise Development Plan is a proposal to reconfigure four existing lots to create two building sites adjacent to Crest Road in Novato. The property is currently developed with a single-family residence and accessory structures that would remain on a fifth lot. Building envelopes are proposed for each lot, but detailed information is only provided for Lots 4 and 7 because only these are contemplated for development in the near future. The reconfiguration would result in lots that range in size from 0.87 acre to 10.32 acres. Both residences would be developed with on-site septic systems outside the building envelopes. The proposed project would include offering a 5-foot wide strip of land adjacent to Crest Road for dedication to the County, and protecting 6 acres of land as permanent conservation areas that would not be developed in the future. A 1.5-acre conservation area is proposed on the northwestern side of the property adjacent to Sunset Trail, and a 4.5-acre conservation area is proposed along a watercourse on the southeast side of the property.	<b>NOD</b>

2004099072	Yuba Blue-Smartville Rock Mining Nevada County --Nevada The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2006-0004-R2. The project involves the commercial extraction of boulders and the creation of fish habitat in Deer Creek, Nevada County.	<b>NOD</b>	
2005041023	Apple Valley Ranchos Water Company - Well #33 Health Services, Department of Apple Valley--San Bernardino The proposed well is part of the approximately 27-acre site evaluated for commercial development. Mojave River is approximately 0.5 mile from the project site. The well will be sized for an estimated 1,500 gpm flow. Chlorination is provided at the well discharge pipe with on-site MIOX generation system. Three seepage pits surrounded by 2-ft. high block walls with screen covering will be constructed and used to recharge pump-to-waste water to the ground.	<b>NOD</b>	
2005102005	California Correctional Center Wastewater Treatment Plant Improvement Project Corrections, Department of Susanville--Lassen The proposed CCC WWTP improvement project would enhance treatment facilities at the CCC WWTP to improve discharge effluent quality in compliance with the California Regional Water Quality Control Board, Lahontan Region permit requirements. The CCC WWTP system is currently permitted to treat an average dry weather flow of 1.4 million gallons per day (mgd), and is currently permitted to discharge 1.0 million mgd via land disposal onto irrigated row crops. The proposed project would increase the facility's permitted treatment and discharge capacity to 1.8 mgd. Proposed facilities include the proposed acquisition of a 640-acre parcel of land that would accommodate a new 270-acre irrigation spray field and a buffer zone around the spray field. Project improvements include constructing two storage ponds, converting two sedimentation ponds to aeration ponds, constructing two storage ponds, converting two sedimentation ponds and new sludge drying beds, installing parallel influent force main, and improvements to the plant head works. The proposed facility would be located within the existing CCC property boundary and will be operated by existing plant operations staff.	<b>NOD</b>	
2006011083	Youth Development Center Fresno, City of Fresno--Fresno The Parks, Recreation and Community Services Department proposes to acquire land, design, and construct a new 10,000 square foot Youth Development Center. 	cafeteria capabilities to serve the existing student and staff population of the Sonoma Valley Charter School, as a classroom, as general meeting and activities room, and for evening meetings with parents and the general public; - an approximately 600 square foot secure storage building; - an approximately 6,300 square foot asphalt paved parking lot; and, - a curb and sidewalk structure along the frontage of the parcel with Vailetti Road.		
2006042117	South Feather Water and Power Agency Permit Extensions South Feather Water and Power Agency --Butte, Yuba, Sutter SFWPA and YCWD have filed petitions with the State Water Resources Control Board Division of Water Rights requesting extensions of time to place water to full beneficial use under several existing water-right permits.	<b>NOD</b>	
2006052016	Paul's Automotive Service Center Oakley, City of Oakley--Contra Costa The project includes the approval of a Development Plan and Conditional Use Permit to construct and operate a 10,125-square feet automotive garage, and construct additional improvements to the property.	<b>NOD</b>	
2006052103	Sacramento River Bank Protection Project, Five Critical Erosion Sites at River Miles L 26.9L, 34.5R, 72.2R, 99.3R, 123.5 Reclamation Board West Sacramento--Sacramento, Yolo, Sutter The State of California Reclamation Board in partnership with the U.S. Army Corps of Engineers (Corps) and (Reclamation Board) in the Sacramento River Bank Protection Project propose to implement bank protection measures to prevent ongoing streambank erosion at five critically eroding sites along the Sacramento River. The five sites are River Miles (RM) 26.9L, RM 34.5L, RM 72.2R, RM 99.3R, and RM 123.5L along the Sacramento River in Yolo, Sacramento, and Sutter counties. These five sites are among 24 critical erosion sites in Governor Schwarzenegger's February 24, 2006 Declaration of State of Emergency of California Levee System, and March 7, 2006 Executive Order S-01-06. Erosion into the banks at these sites requires immediate work to prevent levee failure.  The proposed bank protection measures would include: (1) protecting the toe and upper slopes of the bank with rock revetment; (2) establishing a berm around the mean summer water level (MSWL) to provide aquatic habitat during lower and higher river stages in winter and spring; (3) placing instream wood material (IWM) and brush bundles for aquatic habitat; and (4) planting pole and container plantings to stabilize the bank and provide riparian habitat.	<b>NOD</b>	
2006069008	Roscoe Timber Harvest Plan - Streambed Alteration Agreement Forestry and Fire Protection, Department of --Nevada Streambed Alteration Agreement 1600-2006-0047-R2. This involves construction and/or improvement of five permanent waterholes for dust abatement, wildland fire suppression and control of project involving prescribed fire. Three of the waterhole sites will also include installation of a corrugated metal pipe (CMP) for outflow or to improve an existing crossing. Six permanent CMP's and one permanent rock ford are also being proposed to improve existing conditions or provide new crossings.	<b>NOD</b>

	area reports that over 400 children walk and 100 children bicycle to school every day. The project will construct 2,800 linear feet of 6-foot wide sidewalk, in order to close the gap of pedestrian and bicycle facilities along the north side of Concord Blvd.		
2006068080	<p>Blacksmith's Display Replacement Project Parks and Recreation, Department of San Juan Bautista--San Benito</p> <p>The Blacksmith's Display is a single story open-faced structure located at San Juan Bautista State Historic Park where period tools are displayed and blacksmithing demonstrations are conducted. The structure is approximately 75 feet long and 16 feet wide and was constructed in 1948. While the structure is over 50 years old, it was identified as an ancillary building that neither relates to the standard Post War development nor contributes to the adjacent historic district. Recent attempts to support the unsafe and collapsing roof failed when it was discovered that the majority of the structure was deteriorated and rotted. This project will replace all the rotted material in kind wherever feasible. In areas where structural integrity is compromised, slightly larger diameter lumber may be used or an extra support post added. Where possible, lumber will be salvaged and re-used. The Display will be re-constructed in the same footprint as the original structure, but will be slightly shorter in length on the northern side to prevent it from being attached to an adjacent structure. Existing utilities and accoutrements (electrical wiring and receptacles, lighting, horseshoes, etc.) will be removed and reinstalled on the replacement structure. While all posts and post footings will be placed in the existing holes, some holes may need to be widened and deepened slightly to accommodate larger posts. A DPR-qualified archaeologist will monitor excavation of the post holes/footings. If potentially significant resources are unearthed, work in the immediate area of the find will be temporarily halted to diverted until the archaeologist has evaluated the find and implemented appropriate treatment and disposition. The District Archaeologist will be notified a minimum of three weeks prior to the start of work to schedule monitoring, unless other arrangements are made in advance. This project will not impact or extend beyond park property and will not be done in conjunction with, or as part of, other projects.</p>	NOE

2006062059	Lakeview Farms Volumetric Mitigation Facility Lincoln, City of Lincoln--Placer The City of Lincoln proposes to purchase an easement from the property owner to construct, operate, and maintain a volumetric storage facility. The project proponent would construct an 1,030 acre-feet impoundment basin on 160 acres of rice fields. The basin would be constructed within the floodplain of Coon Creek to passively capture a portion of the overbank 100-year storm event flood flow from the creek.	<b>MND</b>	07/12/2006
2002071046	Rosedale (Monrovia Nursery Specific Plan) Revised Grading Azusa, City of Azusa--Los Angeles On February 3, 2003, the Monrovia Nursery project received its entitlements, which comprised a General Plan Amendment, Zone Change, Specific Plan approval, Annexation, Development Agreement, and Vesting Tentative Map approval. These entitlements allowed the landowner, Monrovia Nursery, to construct a planned community comprised of up to 1,250 homes up to 50,000 sq ft of commercial, K-8 school, fire station, and an extensive system of parks and open space. An Environmental Impact Report (EIR) pursuant to CEQA, was prepared in connection with said entitlements, and was certified on February 3, 2003. Since the Approval date, the implementation of the project now known as Rosedale has diligently proceeded, and refinements to the various plans and studies have been completed. In managing the grading activities on the property, it was recently discovered that the shrinkage factor was overestimated, which resulted in the surplus of 450,000 cubic yards (CY) of soil material. The original project description upon which the EIR analysis was based assumed a balance condition between cut and fill; therefore no import or export of soil materials was anticipated and consequently the EIR concluded no significant environmental impacts would result from any off-site material transport. In order to manage the surplus soil material, the proposed amended grading plan would feature the following: 1. The grades of the project site would be increased by 5 to 10 feet over the entire site, beginning at approximately the center of the site and ending at the southerly boundary of the of the property. 2. The pad elevations in the Promenade area would increase by approximately 10 feet. 3. After re-grading the site and increasing the elevations, approximately 80,000 to 130,000 CY of soil material would remain to be exported.	<b>NOP</b>	07/12/2006
2006061053	New Livingston Elementary School Livingston Union School District Livingston--Merced Development of a new 850-student K-6 elementary school located on a vacant 19.2-acre parcel contiguous to the current City of Livingston "Sphere of Influence." Administrative and academic core would be situated within the southern part of the site and athletic fields to the north. Robin Avenue and Peach Avenue would serve as the main frontages and access. Road improvements would be included as part of the project. Water and wastewater would be provided by the City of Livingston.	<b>NOP</b>	07/12/2006

2006068077	Education Pavillion Parks and Recreation, Department of --Lake Construction of an Education Pavillion consisting of a 360 square feet enclosed structure and 690 square feet of covered patio area on a concrete slab foundation. The pavillion will be located on open lawn south of the day use parking lot. Excavation for the structure will take place upon existing dredged fill material. The Education Pavillion will be used by school groups for environmental programs.	<b>NOE</b>	
2006068078	2005-165 has been submitted by Charles and Peggy Moore Calaveras County Planning Department --Calaveras Approval of a front setback variance from twenty (20') feet to two (2') feet for a portion of the attached garage, entry deck, retaining wall, and home. The retaining wall will range from seven (7') at the lowest point and fourteen (14') at the highest point.	<b>NOE</b>	
2006068079	Paso Picacho Group Campgrounds and Day Use Restrooms (0506-CD-7146) Parks and Recreation, Department of --San Diego The project will reconstruct the facilities destroyed in the 2003 Cedar fire while following FEMA funding guidelines, present-day California Building Code, and American Disability Act (ADA) requirements. The project will include demolition of the damaged restrooms, disposal of debris, cleaning, rebuilding of the structures, replacement of fixtures, pavement repairs, utility connections or replacement, and general site amenities.	<b>NOE</b>	
2006068081	Concurrence in the Issuance of Revised Solid Waste Facility Permit (SWFP) No. 05-AA-0025 for the Red Hill [Large Volume] Transfer Station in Calaveras County California Integrated Waste Management Board --Calaveras Collection and temporary storage of a recycle-only household hazardous and universal waste; and the minor adjustment of the permitted [land use] boundary to include the existing transfer station, the Red Hill Annex (a pre-existing wood waste yard area), and the connecting section of land along Red Hill Road containing utility lines. These alterations apply to existing, ongoing operations and will not be an expansion of the permitted activities that are ongoing at the Red Hill Facility site.	<b>NOE</b>	
2006068082	Feather River Inn - Timberland Conversion Forestry and Fire Protection, Department of Blairsden--Plumas 4.38 acres of timberland will be converted for the purpose of restoring and upgrading an existing 54 acre resort that has been in operation since 1918. Converted areas will be occupied by landscaping, golf course or replacement cabins. Merchantable logs will be removed and all residual slash will be chipped or burned. Remaining timberlands will be fully stocked following operations. The conversion of timberland requires the approval of Timberland Conversion Permit by the California Department of Forestry and Fire Protection (CDF). The permit exempts the landowner from the Forest Practice Rules stocking requirements following timber operations. The area will be cleared of vegetation under a CDF approved Timber Harvesting Plan (THP). An approved THP will be required prior to the commencement of timber operations.	<b>NOE</b>

	Development Option. The total floor area to be developed under both Options is 3.6 million square feet. All proposed parking would be provided in podium and subterranean parking structures.		
2006021014	The Commons at Chino Hills Chino Hills, City of Chino Hills--San Bernardino The project is a mixed use commercial center on a 49.01-acre site. Proposed uses at the center may include one or all of the following: retail, office, restaurant, and other retail eateries, personal and financial services, hotel, and other related commercial uses. Size of the center will include at least 300,000 square feet but not more than 600,000 square feet of building space. The project will also include up to five freeway pylon signs, plus other project identification signage, and ancillary parking, landscaping and lighting. Primary access for the project will be from Chino Hills Parkway. The applicant proposes to prepare a Specific Plan and statutory Development Agreement to facilitate project development.	<b>EIR</b>	07/31/2006
1984061912	Rincon Hill Mixed Use District (2000.1081E) San Francisco, City and County of San Francisco--SAN FRANCISCO The San Francisco Planning Department proposes to amend the Area Plan for the Rincon Hill Area and to combine the Planning Code's Rincon Hill Special Use District sub-area designations (Residential and Commercial/Industrial sub-areas) into one Rincon Hill Mixed Use (RHM) District, to increase height limits, and to make other changes intended to stimulate additional high density, residential development in the Rincon Hill area. The proposal would also rezone five parcels north of Folsom Street, between Main and Spear Streets, and would enact a 15-foot legislated setback (beyond the existing 10-foot sidewalk) on the north side of Folsom Street in order to ensure that future development in the area does not preclude development of a widened sidewalk and "boulevard" treatment for this section of Folsom Street. Amendments of the San Francisco General Plan and Planning Code, including text and zoning map changes, would be required for the proposal.	<b>FIN</b>	
2005011129	Sycamore Estates I and II Vista, City of Vista--San Diego The proposed project consists of two separate single-family residential subdivisions totaling 58 units on a combined 20.7 acres.	<b>FIN</b>	
2006042039	Carlotta Shoulder Widening Project Caltrans #2 Fortuna--Humboldt The California Department of Transportation (Caltrans), in cooperation with the Federal Highway Administration (FHWA), is proposing to improve safety by widening the shoulders along State Route 36 in and adjacent to the community of Carlotta, Humboldt County. The project proposes to construct 1.7 miles of 4.9 foot shoulders on both sides of the highway, to improve some roadway drainage, to construct a left-turn channelization at Wilder Road, to re-stripe the centerline with double yellow line, to construct Gateway Features at both ends of the community, and to overlay the existng pavement with open graded asphalt concrete. As a consequence of this project, this alternative will include relocating fences, mailboxes, utility poles, and will replenish landscaping.	<b>FIN</b>

2006062067	Four Corners Feed and Gas/ Mini-Mart Sonoma County Permit and Resource Management Department Santa Rosa--Sonoma Request for a Use Permit and Design Review for a 3,853 square foot mini-mart with a 12-pump gas station and a new 9,295 square foot animal supply and feed store with offices and a 6,750 square foot storage building.	<b>Neg</b>	07/13/2006
2006062068	Ravenberry Avenue Culvert Replacement Project Santa Clara County Los Altos Hills--Santa Clara This project consists of a replacement sixty-inch CMP that would bypass the detention basin and direct flow from the creek under Ravensberry Avenue directly to the creek channel downstream. Currently the creek bed on the upstream and of the culvert is scoured and is eroding. Filling activities of the eroded areas would occur at the upstream inlet in order to raise the elevation of the soil surface back to its pre-eroded level. The trench for the CMP would be filled with drain rock and low stress cement. The creek bed at the downstream and of the new culvert has existing riprap. This riprap would remain in place and no new riprap would be added.	<b>Neg</b>	07/13/2006
2006062069	Rogers Reduction of Wetland Setbacks for Residential Development Humboldt County Community Development Services --Humboldt The project consists of the development of a single-family residence built to a maximum of 850 square feet in addition to a maximum of 75 feet of decking. The average height of the structure will be to a maximum of 30 feet. The applicant also proposes to construct approximately 320 feet of fencing not over 6 feet in height and an approximately 201 square foot circular observation deck. A Coastal Development Permit is required for all development in the Coastal Zone. A Special Permit is required to reduce the wetland setback from 100 feet to 81 feet for placement of the residence. The approximately 3-acre parcel is currently developed with a shed. No trees are to be removed and minimal grading is required for this project. The Manila Community Services District will provide the water and sewer services.	<b>Neg</b>	07/13/2006
2006062070	Hillside Estates Contra Costa County Martinez--Contra Costa 11 lots subdivision, development plan and rezone for the construction of 11 single family residences.	<b>Neg</b>	07/13/2006

<b><u>Documents Received on Thursday, June 15, 2006</u></b>			
2006061072	<p>Waste Water Treatment Plant Upgrade Imperial, City of Imperial Beach--Imperial</p> <p>The proposed project consists of upgrading the City's existing waste water treatment plant facility, located at the northeast corner of 14th Street and N Street, within the City of Imperial.</p> <p>The District propose (1) modifications to the existing headworks; (2) installation of a packaged lift station(s) and appurtenant piping; (3) installation of an extended aeration/activated sludge basin with integral clarifier treatment system, including a separate building to house the blowers; (4) removing the existing Trojan UV3000 disinfection system replacing it with a higher output and more efficient UV system; (5) construction of 10 additional sludge-drying beds, and (6) upgrading the existing electrical equipment, as necessary. This expansion will occur on approximately 6.56 acres of vacant land owned by the City, directly north of the existing WWTP.</p>	<b>Neg</b>	07/14/2006
2006062073	<p>Wildwood Estates Vesting Tentative Subdivision Map &amp; Planned Development Permit (S/PDP 05-15) Chico, City of Chico--Butte</p> <p>Proposed 192-lot residential subdivision and planned development permit (PDP) on a 36.4 acre site located on the east side of Cactus Avenue (2812 Cactus Avenue). The subdivision proposes 170 single-family lots and 22 duplex lots, for a total of 214 residential units at a density of 5.88 units per gross acre.</p>	<b>Neg</b>	07/14/2006
2005081099	<p>Planning Areas 18, 33 (Lot 109), 34, and 39 Irvine, City of Irvine--Orange</p> <p>Planning Area 18: A General Plan Amendment and Zone Change are being processed to allow for the dwelling units of a maximum of 750 dwelling units. The current General Plan allows for 200 Medium Density dwelling units and 550 Medium/High Density dwelling units of residential development on both sides on Laguna Canyon Road and adjacent to Veeh Creek, on the easterly side of the project. The proposed plan would amend the General Plan to allow for 175 Low Density dwelling units and 575 Medium Density dwelling units. The total number of dwelling units in PA 18 will not be increased. The proposed plan would also reconfigure development within PA 18 away from Veeh Creek and Laguna Canyon Road in order to minimize impacts to the sensitive biotic resources in the Veeh Creek area and increase the open space along Laguna Canyon Road.</p> <p>Planning Area 39: As a part of the proposed project, the current boundary of PA 39 would be modified; the western portion of the Planning Area would be included as a part of PA 18. PA 39, as modified, is generally bounded by PA 18 to the west, I-405 to the north, Irvine Center Drive to the east; and the Center Drive. The proposed plan for PA 39 east of San Diego Creek will change the land use from Commercial to Medium and Medium-High density residential use. The portion of PA 39 west of San Diego Creek will now become part of PA 18. In addition, the General Plan Amendment and Zone Change for the project site will ultimately allow the development of approximately 3,700 dwelling units in the eastern portion of PA 39. In addition to proposed residential uses, associated infrastructure, neighborhood parks and a trail along San Diego Creek are also proposed for the project. The proposed project also involves the preservation of open space, primarily in the southern portion of the project site adjacent to San Diego Creek.</p>	<b>NOD</b>

<b><u>Documents Received on Thursday, June 15, 2006</u></b>			
	Planning Area 33: The portion of PA 33 being changed to allow residential use is a 29-acre site bounded by Alton Parkway, Meridian and Pacifica. The General Plan Amendment and Zone Change for the project site would allow for the development of a maximum of 1,600 dwelling units.		
	Planning Area 34: Planned but unused surplus commercial intensity will be removed from PA 34 and reallocated to PA 39 as residential intensity. The General Plan Amendment and Zone Change for the site would reduce development intensity by 2,340,500 square feet (360,500 square feet of Community Commercial and 1,980,000 square feet of General Industrial).		
2005122114	Tahoe Estates Erosion Control Project (PEAQ T20050978) Placer County Planning Department --Placer The project area is located immediately adjacent to Lake Tahoe. Excessive runoff is generated by impervious residential development, including paved and unpaved roadways and rooftops. A variety of unstable sediment sources exist in the project area, including eroding road shoulders, cut slopes and two unpaved County maintained roadways (Wildrose Drive and Laurel Avenue). Storm water runoff in the project area typically flows down unstable earthen road shoulders and into drainage systems that quickly convey sediment and nutrients to Lake Tahoe, contributing to the reduction of clarity of the lake.	<b>NOD</b>	
2006012019	Miners Ravine Off-Channel Detention Facility Project Placer County Flood Control And Water Conservation Roseville--Placer Flood Control Facility / Creek Restoration	<b>NOD</b>	
2006022003	Tahoe Pines Erosion Control Project (PEAQ T20050977) Placer County Planning Department --Placer The proposed project is a portion of Environmental Improvement Project #218.1. The project entails: - Addressing eroding cut banks through a combination of mechanical stabilization and re-vegetation - Installation of facilities to capture road sand - Spreading of concentrated road run-off across public lands rather than conveyance directly to Lake Tahoe without treatment	<b>NOD</b>	
2006032050	2005-01 Zoning Amendment Calaveras County Planning Department --Calaveras The applicants are requesting a Zoning Amendment from C1-PD (Local Commercial - Planned Development) to C2-PD (General Commercial - Planned Development) on APNs 46-035-011, 015 and 016.  Planned Development permit for a proposed mini storage facility with 701 units (Phase 1) and onsite living quarters for security manager on APN 46-035-015.	<b>NOD</b>

2006052031	<p>Pinkham Residence Santa Clara County Unincorporated--Santa Clara</p> <p>This application is for a Building Site Approval with Architecture and Site Approval, Design Review and Grading Permit to construct a new residence, parking area, driveway and bridge. The location of the new residence will require the removal of three oak trees of 16-, 17-, and 22-inch diameters. The new bridge is required to provide access to the new residence to Canon Drive over the San Tomas Aquino Creek. The proposed project will include necessary grading and trenching for the associated driveway, building pad and small backyard courtyard. The project entails 2,897 cubic yards of cut and 147 cubic yards of fill.</p>	<b>NOD</b>	
2006068100	<p>Construct an Interpretive Deck Parks and Recreation, Department of --San Mateo</p> <p>Construct a +/- 100 sq. ft. interpretive deck adjacent to Ano Nuevo Pond within Ano Nuevo State Reserve. Deck will begin adjacent to an existing packed gravel trail and will be used by park visitors to view wildlife and plant communities associated with Ano Nuevo pond. Deck includes the installation of 3 interpretive panels. Deck will be set on above ground concrete footings to minimize ground disturbance and be constructed of re-cycled materials. Any removal of vegetation will be done with hand tools in the presence of an environmental scientist familiar with San Francisco Garter Snake and California Red Legged Frog.</p>	<b>NOE</b>	
2006068101	<p>Pave Existing Graveled Parking Spur Parks and Recreation, Department of --Santa Cruz</p> <p>Pave an existing +/- 250 sq. ft. graveled parking spur for Campsite 45, in Huckleberry Campground at Big Basin Redwoods State Park. Project will modify and correct a significant change in elevation between the adjoining paved campground road and the subject graveled campsite parking area.</p>	<b>NOE</b>	
2006068102	<p>Benicia Capitol Exterior Restoration Parks and Recreation, Department of Benicia--Solano</p> <p>Clean the exterior brick and mortar surface of the Capitol building at Benicia Capitol State Historic Park with a combination chemical rinse/low pressure water wash to remove any loose paint. Mechanically remove one inch of deteriorated mortar and re-point. Extent of re-pointing will be identified by the architect prior to the start of construction but is not expected to exceed 10% of the building surface. Repair spalling lintels and exterior sills where failure has occurred. Repaired lintels and sills to match existing non-spalling units. Apply consolidant to the exterior brick and sandstone lintels/sills and watertable. Remove and replace any loose window glazing compound.</p> <p>Replace the deteriorated existing stairs. The exposed surfaces will be replaced along with any of the support structure that is found to be deteriorated beyond usable condition. Exposed surfaces will match the appearance of the existing non-historic surfaces. The structural supports are not visible. The non-historic members shall be replaced using current construction methods. Historic structural members requiring replacement are very limited and shall be replaced with Douglas fir of similar dimensions to the damaged member.</p> <p>Remove soil from around the perimeter of the building approximately 2 feet out</p>	<b>NOE</b>

	and 2 feet down. This soil is considered contaminated and will be disposed of at a certified landfill. Re-landscape flower beds with clean imported fill. In addition, an area approximately 40 feet by 90 feet of top soil below the lawn area between the planter bed and First Street may be contaminated. If this area is found to be contaminated, remove the top 4 to 6 inches of the soil and dispose at a certified landfill; replace removed soil with clean fill. To avoid release of lead particles (airborne and otherwise) during removal of contaminated soil and paint, disturbance with applicable state, federal, and local regulations (e.g. 8 CCR 1532.1 and 17 CCR 35001-36100).		
	Project and construction managers shall: (1) consult with the DPR district historian before and during the proposed work to ensure that the project follows accepted preservation treatment guidelines for historic brick, masonry, sandstone, wooden windows, flat plaster, and installation of replacement non-historic steps; and (2) notify the DPR district archaeologist at least one week before removing soil around perimeter of building, so that he may monitor removal of soil and record information about any archaeological features, should they be present.		
2006068103	Upper Feather River Watershed Irrigation Discharge Management State Water Resources Control Board --Lassen, Plumas, Sierra The project consists of collecting water samples at four locations in the Upper Feather River Watershed. The project also includes interacting with local agricultural landowners and supporting work activities in the watershed to address the requirements of the Central Valley Regional Water Board's agricultural discharge waiver program to address water quality issues associated with discharge from irrigated lands in the area.	NOE	
2006068104	Going Organic Project #04-319-550-0 State Water Resources Control Board -- The project will accelerate the transition of 5,000 acres of irrigated farmland to organic production over three years in Regions 2 and 5. The project will eliminate pollutants causing water body impairments, synthetic fertilizers, and reduce sediment. Water quality monitoring will assess the beneficial and economic effects of organic production techniques.	NOE	
2006068105	2006-45 has been Submitted by Gerald and Dorothy Allen Calaveras County Planning Department --Calaveras Approval of a front setback variance from 20' to 16'. Also requesting a rear setback variance from 20' feet to 14.54' from the property line for a proposed home.	NOE	
2006068106	Transfer of Coverage to Placer County APN 93-271-02 (Pasvantis) Tahoe Conservancy Unincorporated--Placer Project consists of the sale and transfer of 472 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE
